

Position: PhD student in project **OPUS 10** " Porous materials under extreme conditions"

Number of stipends: 1

Institution : Faculty of Chemistry, Adam Mickiewicz University in Poznań

Duration: 3 years

Stipend's amount: 2,500 PLN per month plus motivation salary.

Key responsibilities include:

1. Synthesis of new materials in high pressure
2. X-ray diffraction crystallography, NMR, UV-VIS, IR spectroscopy, calorimetry
3. Computational chemistry

Profile of candidates:

1. M.Sc. degree in Chemistry, Materials Science, Physical Chemistry, Physics, Informatics or related fields
2. Good background in physical chemistry and crystallography
3. No more than 4 years from completing M.Sc.
4. Good command in of English
5. Computational and programming skills welcome

Required documents:

1. Motivation letter
2. CV
3. M.Sc. diploma (a scan) and the list of examinations taken and their grades
4. List of publications/conferences attended.
5. E-Mail address(es) of one or two who can be senior scientists asked to for a recommendation

Principal Investigator: Prof. Andrzej Katrusiak

Address for applications: katran@amu.edu.pl

Closing date: 23 June, 2017

Additional information
